

# **Digital Tracking and Corporate Surveillance**

**Collecting, Analyzing and Selling Personal Data in the Age of Big Data:  
Global Trends, Selected Examples, Risks and Challenges.**

## **Contents & Bibliography (English)**

Cracked Labs – Institute for Critical Digital Culture

<http://crackedlabs.org>

Author: Wolfie Christl

Research report on behalf of the Austrian Chamber of Labour, Vienna.  
Published in November 2014. Full report in German language is available here:

<http://crackedlabs.org/studie-kommerzielle-ueberwachung/info>

# Contents

## Privacy, Data Protection and Surveillance

- Informational self-determination and personal data
- European Union, USA and Declaration of Human Rights
- Corporate surveillance

## Analyzing and Linking Digital Personal Data

- Big Data, Predictive Analytics and Data Mining
- The power of predictive analytics: Examples
  - Consumer behavior and pregnancy
  - Predicting sensitive personal attributes from Facebook Likes
  - Predicting character traits from mobile phone metadata
  - Predicting character traits and sensitive attributes from webserver logs and search terms
  - Predicting emotions from keystroke dynamics
  - Predicting future locations from smartphone metadata
  - Predicting relationships and breakups from the Facebook social graph
- Use cases in the fields of marketing, insurance, finance and human resources
- Personalized price discrimination in online shopping?
- Identification and de-anonymization

## Devices and Platforms

- Smartphones and apps
  - Misuse of personal data by mobile apps
- Fitness tracker and wearables
  - Side note: motivating behaviour change with gamification
  - Example: Fitbit
  - Disclosure of health data to employers and insurance companies
- Car driving behavior and usage-based insurance
  - Example: Sparkassen DirektVersicherung
- Internet of Things and ubiquitous surveillance
  - Thermostats, e-books, smart TV and electronic tags for employees and babies

## Data Brokers

- List broking and database marketing in German-speaking countries
  - Example: AZ Direkt
- Blacklisting and credit scoring in German-speaking countries
  - Example: arvato infoscore
- Data brokers acting on a global level
  - Examples: Datalogix, eBureau, PeekYou, Recorded Future, Lexis Nexis
  - Example: Acxiom
- Online tracking and ad networks
  - Example: Flurry

## Conclusion

- Collecting, analyzing and selling personal data in the age of big data
- Societal risks of corporate digital surveillance
- Policy recommendations, European Data Protection Regulation and suggestions for companies, citizens, civil society
